PROFESSIONAL SUMMARY

Front-End Developer with a Bachelor's degree in Computer Information Systems (2025) and hands-on experience building responsive, user-focused web applications with React, TypeScript, JavaScript, HTML, CSS, and Tailwind CSS. Delivered projects including an online ordering system with QR-code generation and an admin dashboard, a Firebase-powered church management website, and a budgeting checklist app with data backup. Completed a 90-hour Web Development program (2025). Seeking an entry-level Front-End / React Developer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Front-End: React, Vite, Tailwind CSS, Responsive Design, Interactive Forms, Component-Based Architecture
Back-End & Data: Firebase, REST API Integration, Database-Backed Catalogs, Browser localStorage, Data Import/Export
Tools: Git, GitHub, Vercel, GitHub Pages

PROJECTS

City Drink Alharam | Online Juice Menu and Ordering System
- Built an electronic juice menu where customers submit orders and receive a generated QR code for the order flow.
- Developed a password-protected admin dashboard that receives customer orders automatically.
- Connected a database-backed price catalog with admin operations to add, edit, delete products and update prices.

Church Management Website | Live Demo
HTML, CSS, JavaScript, Firebase
- Designed and developed a full website with news, parish information, population census, and service schedules.
- Implemented interactive modules for event photo galleries, confession appointment booking, and trip registration.

October Higher Institute Website
HTML, CSS, JavaScript
- Created a dynamic website with institute details, inquiries, contact forms, student registration, photo galleries, and a rating-based feedback system.

Beauty Salon Website
HTML, CSS, JavaScript
- Developed a fully responsive website with service cards, an interactive booking system, a shopping cart, and customer inquiry features.

Bride List | Wedding Checklist and Budget Planner
JavaScript, HTML, CSS, localStorage
- Built a checklist app to organize wedding items, set a budget, and show practical tips, with user data stored in browser localStorage.
- Added backup import/export so users can save and restore their data.

PrayAR | Live Demo | Photo Artiste | Live Demo
- **PrayAR:** React and Vite project that fetches and displays data from multiple APIs.
- **Photo Artiste:** gallery-style photography portfolio website for presenting an artist's work.

EDUCATION

Bachelor's Degree in Computer Information Systems (CIS) | October Higher Institute for Engineering and Technology | 2025
Grade: Very Good (86%) | Graduation Project: "The Role of Artificial Intelligence in Enhancing Employee Performance" (Excellent)

TRAINING AND CERTIFICATION

Web Development Program (90 Hours) | PEA Learning, affiliated with the Canadian Academy of Sciences | 2025

LANGUAGES

Arabic: Native | English: Intermediate
